DOCUMENTS OF THE BIOLOGY BRANCH OF FAO FISHERIES DIVISION

Documents which are not official FAO publications are issued in several series. They are given a restricted distribution and this fact should be indicated if they are cited. Most of them are prepared as working papers for meetings, or are summaries of information for use of member governments, organizations, and specialists concerned.

DOCUMENTS DE LA SOUS-DIVISION DE LA BIOLOGIE DE LA DIVISION DES PÊCHES DE LA FAO

Des documents qui ne figurent pas parmi les publications officielles de la FAO sont publiés dans diverses séries. Ils font seulement l'objet d'une distribution restreinte; aussi convient-il de le préciser lorsque ces documents sont cités. Il s'agit le plus souvent de documents de travail préparés pour des réunions, ou de résumés d'information à l'intention des gouvernements des pays membres, ainsi que des organisations et spécialistes intéressés. Ces séries sont les suivantes:

DOCUMENTOS DE LA SUBDIRECCION DE BIOLOGIA DE LA DIRECCION DE PESCA DE LA FAO

Esta Subdirección publica varias series de documentos que no pueden considerarse como publicaciones oficiales de la FAO. Todos ellos tienen distribución limitada, circunstancia que debe indicarse en el caso de ser citados. La mayoría de los títulos que figuran en dichas series son documentos de trabajo preparados para reuniones o resúmenes de información destinados a los estados miembros, organizaciones y especialistas interesados.

FAO Fisheries Report	**FIb/R (No.)**
FAO Fisheries Circular	**FIb/C (No.)**
FAO Fisheries Synopsis	**FIb/S (No.)**

Special groups of synopses are identified by symbols followed by classification numbers based on indexed code of " Current Bibliography ":

SAST	Data concerning certain species and fish stocks.
MAST	Information on methods and subjects.
OT	Oceanographic data.
IT	Limnological data.
	and
CART	Information concerning fisheries and resources of certain countries and regions (FID/S).

Des catégories spéciales d'études synoptiques sont identifiées à l'aide de symboles suivis des chiffres de classification basés sur le code d'indexation de la « Current Bibliography »:

SAST	Données sur certaines espèces et populations de poissons.
MAST	Renseignements sur des méthodes et des sujets.
OT	Données océanographiques.
IT	Données limnologiques.
	et
CART	Renseignements sur les pêcheries et les ressources de certains pays et régions (FID/S).

Grupos especiales de sinopsis se distinguen con las siglas siguientes, seguidas por números de clasificación que se basan en las claves de los índices de la « Current Bibliography »:

SAST	Datos relativos a ciertas especies y poblaciones.
MAST	Sinopsis sobre métodos y materias.
OT	Sinopsis sobre oceanografía.
IT	Sinopsis sobre limnología.
	y
CART	Información sobre los recursos acuáticos vivos de algunos países y regiones (FID/S).

FAO Fisheries Biology Technical Paper **FB/T (No.)**

Special groups of Technical Papers are identified by:

RE	Indexed lists of experts and institutions drawn from Registers maintained by Biology Branch.
CB	Lists of Periodicals, special sections of " Current Bibliography for Aquatic Sciences and Fisheries ", special bibliographies and papers concerning documentation problems.
MFS	Provisional editions of " FAO Manuals in Fisheries Science ".

Some documents also have another identification, if, for example, they have been contributed to a meeting for which papers have been numbered according to another system.

Des catégories spéciales de documents techniques sont identifiées à l'aide des symboles suivants:

RE	Listes indexées d'experts et institutions tirées des registres tenus à jour par la Sous-Division de la biologie.
CB	Listes de périodiques, des sections spéciales de la « Current Bibliography for Aquatic Sciences and Fisheries », des bibliographies spéciales et des articles sur les problèmes de documentation.
MFS	Editions provisoires des « Manuels FAO de la science des pêches ».

Certains documents portent parfois d'autres numéros d'identification, par exemple s'ils ont été préparés pour une réunion dont les documents ont été numérotés selon un autre système.

Grupos especiales de documentos técnicos se identifican por las siglas siguientes:

RE	Listas índices de expertos y de instituciones tomadas de los registros que se llevan en la Subdirección de Biología.
CB	Listas de periódicos, secciones especiales de la « Current Bibliography for Aquatic Sciences and Fisheries », bibliografías especiales y trabajos relativos a los problemas de documentación.
MFS	Ediciones provisionales de los « Manuales FAO de la Ciencia de la Pesca ».

Algunos documentos tienen también otra identificación si, por ejemplo, son contribuciones a una reunión cuyos documentos han sido marcados con arreglo a otros sistemas.

PREPARATION AND ARRANGEMENT OF THIS DOCUMENT

This is the first Supplement to the first Volume of the "World List of Periodicals for Aquatic Sciences and Fisheries". In it are listed the titles and short forms of periodicals which have come to our attention since Volume 1 was issued, in March 1962. It includes new periodicals, title changes, corrections of misprints and of other errors, and supplementary information. On page 48 are listed code numbers of periodicals which were listed in Volume 1 and have since become "extinct"; these are also listed on the "X" pages. Starting on page 49 are given cross-references to (unofficial) translated titles of certain periodicals, which are sometimes encountered in lists of references, but which are not generally used in the "Current Bibliography for Aquatic Sciences and Fisheries".

When an amendment is made to a title listed in Volume 1, its original five-digit code number is given, followed by the amended title or short form. Periodicals not listed in Volume 1 are given five-digit numbers, followed by a decimal, which indicate where they should be inserted in Volume 1 to retain alphabetic order. Thus, the proper place for 00304.1 is on page 003 between 00304 and 00305. Another periodical, the title of which is alphabetically between 00304.1 and 00305, would be numbered 00304.2. In later supplements periodical titles alphabetically between 00304.1 and 00304.2 would be numbered 00304.11, 00304.12, and so on.

Pagination of supplements continues that of Volume 1 itself. These running page numbers are given in parentheses at the top corners of the pages, but for control each supplement has also its own pagination. For a cross-reference to a periodical listed in this first or later supplements, the five-digit plus decimal number is followed, in parentheses, by the running number of the page on which it is listed. It is suggested that regular users of the "World List of Periodicals for Aquatic Sciences and Fisheries" should, in their copies of Volume 1,

a) insert, in the appropriate places, the code numbers of new entries given in supplements, followed by the running page number of each entry;

b) delete entries as indicated and write in their places any reference to additional information to be found in the supplement.

Bibliographic details of selected new periodicals which have begun publication since January 1963, are now listed regularly in Section g (Miscellaneous News Items) of "International Marine Science", a quarterly newsletter prepared jointly by UNESCO and FAO. These selected periodicals are those the contents of which have more or less direct bearing on fisheries problems or some aspect of marine and freshwater sciences. The system of presentation is explained in the Editorial Notes of the first issue of the newsletter. The titles of periodicals listed will of course be included also in the supplements to Volume 1 of the "World List of Periodicals for Aquatic Sciences and Fisheries" (indicated by * with cross-reference to IMS entry number).

The Biological Sciences Communication Project of the George Washington University (which was initiated by the American Institute of Biological Sciences) has recently published "Aquatic Biology Serials - A Worldwide List of Titles (Both Current and Ceased) with Selected Descriptive Information" (Document 11-63, August 1963), prepared with the cooperation of FAO. That document lists selected periodicals, and, by punched card codes, indicates certain bibliographic information about each of them. All the periodicals listed therein, and in revised versions which may be issued, are, or will be, also included in the "World List of Periodicals for Aquatic Sciences and Fisheries" and its supplements.

PREPARATION ET PRESENTATION DE CE DOCUMENT

Ce document est le premier Supplément au Ier Volume du "Répertoire mondial de périodiques concernant les sciences aquatiques et la pêche". On y trouve les titres des périodiques qui ont attiré notre attention depuis la parution du volume 1 en mars 1962, et l'abréviation de ces titres. Ce document comprend également de nouveaux périodiques, des changements de titres, des corrections d'erreurs d'impression et autres, ainsi que des informations complémentaires. A la page 48 se trouve une liste des numéros de code des périodiques qui ont paru dans le volume 1 et ont depuis lors été abrogés; ces périodiques sont également cités dans les pages marquées "X". A partir de la page 49, on trouvera des renvois aux titres de certain périodiques qui ont été traduits provisoirement, qui sont quelquefois inclus dans les listes de références mais qui ne sont généralement pas utilisés dans la "Current Bibliography for Aquatic Sciences and Fisheries".

Quand un titre énoncé au volume 1 est modifié, sa référence, un numéro de 5 chiffres, est donnée ainsi que le titre amendé ou abrégé.

Les périodiques qui n'apparaissent pas dans le volume 1 sont répertoriés avec un numéro de 5 chiffres, suivi d'une décimale, qui indique où il devraient être insérés dans le volume 1 afin de conserver l'ordre alphabétique. Ainsi, l'emplacement exact du numéro 00304.1 est à la page 003 entre 00304 et 00305. Un autre périodique dont le titre, selon l'ordre alphabétique, se place entre 00304.1 et 00305, serait numéroté 00304.2. Dans les futurs suppléments, les périodiques dont les titres se placent alphabétiquement entre 00304.1 et 00304.2 seraient numérotés 00304.11, 00304.12, etc.

La pagination des suppléments est la continuation de celle du volume 1. La numération continue de ces pages est donnée entre parenthèses dans le coin supérieur mais, afin de faciliter le contrôle, chaque supplément a également sa propre pagination. Pour renvoyer à un périodique cité dans le premier ou les futurs suppléments, le numéro de 5 chiffres et sa décimale est suivi, entre parenthèses, du numéro de la page sur laquelle il figure.

Il est suggéré aux personnes consultant régulièrement le "Répertoire mondial de périodiques concernant les sciences aquatiques et la pêche" (Volume 1):

a) d'insérer, aux emplacements appropriés, les numéros de code des nouvelles entreés données par les suppléments, suivis des numéros de la pagination continue de chaque entrée;

b) de biffer les entrées ainsi qu'indiqué et inscrire à leur place toute référence aux informations complémentaires pouvant être trouvées dans le supplément.

Les détails bibliographiques des nouveaux périodiques sélectionnés ayant paru depuis janvier 1963 sont maintenant donnés regulièrement dans la Section g (Miscellaneous News Items) du "International Marine Science", une publication trimestrielle préparée conjointement par l'UNESCO et la FAO. Ces périodiques sélectionnés sont ceux dont le contenu se rapporte plus ou moins directement aux problèmes de la pêche ou à quelques aspects des sciences marines et des eaux douces. Le système de présentation est expliqué dans les "Editorial Notes" du premier numéro de la publication. Les titres des périodiques cités sont évidemment inclus également dans les suppléments au volume 1 du "Répertoire mondial de périodiques concernant les sciences aquatiques et la pêche" (avec l'indication * et le renvoi au numéro IMS).

Le "Biological Sciences Communication Project" de l'Université George Washington (qui a été commencé par l'"American Institute of Biological Sciences") a récemment publié: "Aquatic Biology Seriale - A Worldwide List of Titles (Both Current and Ceased) with Selected Descriptive Information" (document 11-63, août 1963), préparé en collaboration avec la FAO. Ce document donne la liste des périodiques sélectionnés et, au moyen de codes pour cartes perforées, indique certaines informations bibliographiques pour chacun d'eaux. Tous les périodiques inclus dans cette publication et, éventuellement dans ses versions révisées sont, ou seront, également inclus dans le "Répertoire mondial de périodiques concernant les sciences aquatiques et la pêche" et dans ses suppléments.

CONTENIDO Y DISPOSICION DE ESTE DOCUMENTO

Este es el primer Suplemento del Volumen 1 de la "Lista Mundial de Publicaciones Periódicas Referente a las Ciencias Acuáticas y a la Pesca". En él se enumeran los títulos, y su forma abreviada, de los periódicos de cuya publicación hemos sido informados desde que apareció el primer volumen, en marzo de 1962. Se incluyen nuevos periódicos, cambios de títulos, correcciones de erratas y de otros errores, así como información complementaria. En la página 48 se elencan los números de cifra de los periódicos que figuraban en el Volumen 1 y que han dejado de publicarse después, los que igualmente se han elencado en las páginas "X". En la página 49 se dan referencias simultáneas a la traducción extraoficial de los títulos de algunos periódicos que se encuentran mencionados ocasionalmente en las listas de referencias, pero que no se utilizan, por lo general, en la "Current Bibliography for Aquatic Sciences and Fisheries".

En el caso de modificaciones de títulos elencados en el Volumen 1, se indica el número original de cifra de cinco dígitos correspondiente, seguido por el título modificado o la abreviatura.

Aquellas publicaciones no incluidas en el Volumen 1 reciben un número de cinco dígitos, seguido por un decimal, con lo que se indica el lugar en que deben incluirse en el Volumen 1 para conservar el orden alfabético. Así, pues, el lugar exacto del 00304.1 será la página 003 entre los números 00304 y 00305. Otra publicación cuyo título debiera situarse por orden alfabético entre 00304.1 y 00305 recibiría el número 00304.2. En suplementos posteriores los títulos a incluir entre 00304.1 y 00304.2 se numerarán 00304.11, 00304.12 y así sucesivamente.

La paginación de los suplementos continúa la del Volumen 1. Estos números de página correlativos se dan entre paréntesis en los ángulos de las páginas pero, para mejor control, cada suplemento tiene también paginación propria. A los efectos de la referencia simultánea de los periódicos elencados en este primer suplemento, o en suplementos posteriores, el número de cinco dígitos más el decimal, va seguido entre paréntesis por el número correlativo de la página en la que está elencado.

Se sugiere a las personas que utilizan la "Lista Mundial de Publicaciones Periódicas Referente a las Ciencias Acuáticas y a la Pesca" que hagan lo siguiente en sus ejemplares del Volumen 1:

a) incluir, en los lugares adecuados, los números de cifra de las nuevas inserciones hechas en los suplementos, seguidos por el número de página correlativo de cada inserción;

b) suprimir las inserciones indicadas y escribir en su lugar toda referencia a informaciones adicionales que pueda hallarse en el suplemento.

Los detalles bibliográficos de nuevos periódicos seleccionados que comenzaron a publicarse después del 1º de enero de 1963 se elencan con regularidad en la Sección g (Miscellaneous News Items) de "International Marine Science", publicación informativa trimestral preparada conjuntamente por la UNESCO y la FAO. Estos periódicos seleccionados son aquellos cuyo contenido se relaciona directa o indirectamente con los problemas pesqueros o con algunos aspectos de las ciencias marinas o de aguas interiores. El sistema de presentación se explica en las Notas Editoriales del primer número de dicha publicación informativa. Los títulos de los periódicos elencados se incluirán, naturalmente, en los suplementos al Volumen 1 de la "Lista Mundial de Publicaciones Periódicas Referente a las Ciencias Acuáticas y a la Pesca" (indicados por * con referencia al número de orden de IMS).

El proyecto de comunicaciones entre studiosos de ciencias biológicas (Biological Sciences Communication Project) de la Universidad George Washington, que fué iniciado por el Instituto Americano de Ciencias Biológicas, ha publicado recientemente "Aquatic Biology Serials - A World-wide List of Titles (Both Current and Ceased) with Selected Descriptive Information" (Documento 11-63, Agosto 1963) preparado en cooperación con la FAO. Este documento elenca una selección de periódicos y por medio de claves para tarjetas perforadas, indica determinada información bibliográfica sobre cada uno de ellos. Todos los periódicos incluidos en él y en las versiones revisadas que pueden publicarse son, o serán, incluidos igualmente en la "Lista Mundial de Publicaciones Periódicas Referente a las Ciencias Acuáticas y a la Pesca" y sus suplementos.

FAO FISHERIES BIOLOGY TECHNICAL PAPERS (CB)

This is one of a group of Technical Papers (see inside front cover) giving information concerning bibliographic and intelligence services for aquatic sciences and fisheries. Further information and extra copies can be obtained from:

Cet ouvrage fait partie d'un groupe de Documents techniques (voir au verso de la page de couverture) donnant des informations sur les services de bibliographie et de renseignements des sciences aquatiques et des pêches. Pour obtenir des renseignements complémentaires et des exemplaires supplémentaires, prière de s'adresser à:

Forma parte de un grupo de documentos técnicos (véase la contraportada anterior) con datos sobre los servicios bibliográficos e informativos de las ciencias acuáticas y la pesca. Para obtener mayor información o más ejemplares, dirigirse a:
